

- CONSTRUCTION MANAGEMENT
- CUSTOM HOME BUILDING
- REMODELING

To whom it may concern:

I have had the pleasure of working with Dan Parish and his team now for over 4 years now. I particularly enjoy working with Millworks by Design for many reasons, their professionalism, organization, quality of workmanship and ability to maintain our schedule is why my firm continues to work with Dan and will do so for many years to come. Being in the high end home construction management business for over 24 years, I have come across many different personalities and sub-contractors, I believe the best recommendation I can give is to state that in all of my years of experience working with different trades, Millworks by Design are one of my top three favorite sub-contractors. If you would like to discuss my experience with Millworks by Design any further, please don't hesitate to contact me any time.

Sincerely,

Roy T Abbott
